

## **Boustead unit lands \$11m worth of deals**

BOUSTEAD Singapore has announced its water treatment subsidiary – Boustead Salcon Water Solutions (BSWS) – has landed \$11 million worth of deals from two power companies. The first contract, which covers the design, process engineering and construction of water and wastewater treatment facilities for a thermal power plant in Vietnam, was awarded to BSWS by the Lilama Corporation. A second deal with Toshiba Plant Systems and Services Corporation is for the provision of installation and commissioning services for the Tanjung Jati B Power Plant in Central Java.
